*Now at a discounted price: the shift-lock LIGHT doesn't always work. Shift-lock works, but not the indicating light!

Put your paper in and type--that's how they were making them in 1988. Yes, you can erase characters or words. Yes, you can set and change margins. Yes, you can change fonts and font sizes. But you don't have to do any of that (or even know how to do it). It's the perfect typewriter for someone who has a difficult time with computers.

Call me and set up an appointment to have a complete demo and a crash-course on how these manual typewriters work.

If you're in Cincinnati, I offer free delivery. If ordering it from outside Cincinnati, choose the option to add $30 for shipping.
