For Sale: Smith Corona Spell-Right II SD300 Electric Typewriter With Memory Storage

Description

For Sale: Smith Corona Spell-Right II SD300 Electric Typewriter With Memory Storage

Perfect for offices with common that fill out the same forms over and over again, the SD300 has built-in memory so you can store up to 7 documents and easily recall/edit them. It's a large typewriter, meant to sit on a desk and not be moved.

Built in the 1990s, the typewriter uses internal memory instead of floppy disks, making it more convenient for things like document set-up and return addresses, but not so much for lengthy letters.

The small screen on it enables you to type an entire line before printing, but you can also use it as a regular typewriter, and even use the erase function if you make a mistake.

Call me and set up an appointment to have a complete demo and a crash-course on how these manual typewriters work.

If you're in Cincinnati, I offer free delivery. If ordering it from outside Cincinnati, choose the option to add $30 for shipping.
